

 **HOVIK**  
INDUSTRIES LTD.

**Quality Manufacturing  
Since 1966**

**Message from our President:**

“Our customers are the most important asset we have... we are committed to surpassing their expectations and delivering quality, reliability, and service in every part of our business.”

Since its inception in 1966, Hovik has focused product development and manufacturing goals to align with what our customers expect: Quality, Value, and Reliability. Our products have evolved from classic functional partitions to modern design driven solutions that complement any building.

# Quality Metal Washroom Partitions and Lockers

Low Maintenance - Trouble Free

## SEPARATE

### Superior Partition and Locker Advantages by Hovik

- 24 Designer decorative colours
- Environmentally friendly Powder Coat finish process
- Anti-Graffiti and special vein textured finishes
- Quick and easy installation
- 20 Gauge "Element Series" lockers offer value and superior functionality
- 14 Gauge "Enclave Series" locker, featuring heavy duty, single skin, multipoint security latching
- 4 partition product families; Element, Enclave, Evoke and Estate to fit any project requirements
- Lean manufacturing allows for customized production and rapid delivery

From powder coat baked finishes through to laminate, stainless steel and solid phenolic resins, Hovik has the products to suit any design criteria and budget.

## QUALITY

### Superior Design Advantages by Hovik

- Powder Coat Finish (Element Series)
- Quality Hardware
- Reinforced panel cores
- Mitered and Welded corners
- Handicapped/ADA Compliance
- Enhanced privacy solutions (Enclave series)
- Modern "CNC" automated production facility

### CUSTOM DESIGN TO MEET YOUR NEEDS

Our in-house engineering team is able to create a custom layout, specific to any design criteria or special requirements and we are continually adding to our line of products and finishes.

SAFE-O-MAT® ARBORITE®

## SECURE

### Superior Locker Design Advantages by Hovik

- “Element Series” double pan construction with structural honeycomb core
- “Enclave Series” 14 Gauge multi-point latch for institutional and school use
- 16 gauge steel frames and cross braces
- Full Length Continuous piano hinge welded every 6 inches (150mm) ensures years of stable, high frequency use
- Powder coat finish exceeds the performance of all liquid coatings
- Concealed curtain track for shower stalls and change room applications
- Multi point air ventilation in locker frames
- Locker security prep allows for mechanical and electronic access hardware

**With our customer’s complete satisfaction in mind, Hovik supplies superior quality metal lockers with long term trouble free performance and minimal maintenance.**

## EXPERIENCE

### The Locker Room and Washroom Compartment Specialist

Since 1966, Hovik has been providing our customers in the construction industry with the highest standard of quality, value and reliability. Our company was built on the principal of “easy installation”, and over our long history, we have continuously improved our product to eliminate any design problems, thus affording you the highest quality washroom compartment at the most competitive price, via a rapid, trouble free installation.

## ENVIRONMENTAL PRACTICES

**Powder coating technology:** Hovik was the first washroom partition manufacturer in Western Canada to embrace environmentally friendly powder coating technology. Our finish coatings do not impact the environment as there is virtually no waste, energy consumption is low, and there are no solvent “VOC” emissions

**High recycled content:** All of Hovik’s products feature a high recycled content and can contribute points for LEED sensitive projects.

**Packaging Materials:** Our boxes, shipping containers, and end-caps are made from recycled material, and are recyclable.

**Marketing Collateral:** Hovik’s literature is printed on FSC certified stock, which contributes to the conservation and responsible management of forests.
